

HIGHWAY 111 PAVEMENT REHAB IMPROVEMENT PROJECT WASHINGTON ST TO JEFFERSON ST

The City of La Quinta is set to begin the long-awaited rehabilitation of a two-mile section of Highway 111, stretching from west of Washington Street to Jefferson Street. Highway 111 is a vital route for both residents and visitors of the Coachella Valley, facilitating daily commutes for work, school, shopping, and dining, as well as providing access to recreational and entertainment options in and around La Quinta.

PROJECT IMPROVEMENTS

The frequently used road will undergo pulverization and regrading prior to the installation of new pavement. Additionally, minor upgrades will be made to curb ramps to guarantee compliance with the Americans with Disabilities Act (ADA).

PROJECT DETAILS

Schedule: June 23, 2025 – October 2025

Cost: \$7 million

Funding: 2024/25 Capital Improvement Program (CIP), SB 1, Measure G, Federal Earmark

Working Days and Hours:

Monday to Friday, 5:30 AM to 5:30 PM, with 8-hour scheduled daily shifts.

TRAFFIC IMPACTS

- Lane closures, reduced speed limits, and congestion at intersections will lead to increased travel times.
- Expect potential backups and disruptions to regular traffic flow.
- Traffic lanes may be reduced, and lane shifts could occur, along with the presence of construction equipment and traffic control devices in the active work zone.
